# NUDIST EUROPEAN WOMEN

## NUDIST EUROPEAN WOMEN

In the international sunbathing and nature living monthly magazine it is dedicated to the furthering of understanding among all groups and in all countries where sunbathing is practiced and promoted. This magazine hopes to do its part in the creation of a better world, in which no moral prejudices exist and which will function without the basic no characteristic of our present world. We are trying to promote new methods of education, which will help us realize the goal of sunbathing — a new, beautiful life in freedom and naturalness.
